Signature \_\_\_\_\_ Date \_\_\_\_\_

**WORK TO BE COMPLETED:** \_\_\_\_\_

**SEWER AND WATER REPAIR FOR EXISTING HOME**

- \* This permit application must be completed by a contractor possessing a Minnesota Master Plumbers License.
- \* The contractor shall contact and schedule inspections at (952-953-2588) a **minimum** of 24 hours before the required inspection.
- \* It is the contractor's responsibility to notify the Gopher State One Call system #811 before any digging has begun.
- \* Fee for either sewer **or** water individually is \$63.00 plus state surcharge.

**CONNECTION TO CITY SEWER OR WATER**

- \* A **plumbing contractor** possessing a Minnesota Masters Plumbers License **must** apply for the **sewer and/or water line connection permit**. The charge for the connection permit is \$63.00 plus state surcharge.
- \* All septic tanks must be pumped out and filled. Sewage pumped from tanks must be hauled to an approved dumping station.
- \* Before the water can be turned on, you must call to have the inside connections and the meter inspected, which require a separate plumbing permit. The inspection will include checking for cross connections between the private well and the city water supply. The water will not be turned on until these items pass inspection.
- \* Water from a private well may be used for irrigation purposes but **may not** be used as a water source inside the home.
