

National Public Works Week

May 17 – 23, 2020

“It Starts Here”

The American Public Works Association (APWA), a nonprofit organization with more than 30,000- declared National Public Works Week, May 17-23, 2020, to honor public works professionals in the U.S. and Canada. The celebration of the week draws attention to the important contributions of public works professionals to citizens’ daily lives. Public Works provides essential services to the residents of Apple Valley in the areas of: street transportation, water, wastewater, building maintenance, fleet, engineering design, building inspections, natural resources and Public Works administration.

In honor of the above, at their last meeting on Thursday, May 14th, the Apple Valley City Council proclaimed May 17-23, Public Works Week in Apple Valley. Every year National Public Works Week gets bigger and better. The number of participating municipalities continues to grow, which means the number of citizens who are made aware of the value of public works grows. One of APWA main goals is to educate the general public about the value and necessities of public works projects throughout North America, and public works professionals are our best ambassadors.

Since 1960, APWA has sponsored National Public Works Week. Across North America, our more than 30,000 members in the U.S. and Canada use this week to energize and educate the public on the importance of public works to their daily lives: planning, building, managing and operating at the heart of their local communities to improve everyday quality of life.
