

Watering Restrictions

Irrigation restrictions enhance water conservation, environmental stewardship, and comply with state regulations.

- Lawn watering is permitted before 11 am and after 6 pm each day between May 1 and September 30. Lawn watering refers to in-ground irrigation systems, mechanical sprinklers, and unattended hoses.
- These restrictions do not apply to hand watering (hose must be attended) of plants, children's water toys when in use by children, and non-irrigation water use such as vehicle washing.
- Alternate sources for irrigation such as private wells or water from lakes and ponds are subject to the same lawn watering restrictions as users of the municipal water supply.
- New sod laid and trees planted in the calendar year are exempt.
- Additional water restrictions may be implemented if necessary to maintain normal domestic and fire flow requirements.
