

## COUNTY HIGHWAY 42 (150<sup>TH</sup> ST W) AT EMBRY PATH

Construction is beginning September 11, 2017, for the 3/4 intersection conversion at CSAH 42 and Embry Path in Apple Valley. The intersection improvement will allow safer and smoother traffic flow through the intersection. The new center median will restrict the ability to make left turns onto CSAH 42 from Embry Path. Traffic will still be able to turn left or right from CSAH 42 onto Embry Path. Currently, small utilities (cable, phone, gas, and electric) are being relocated in the boulevard. This will be followed by construction of the eastbound and westbound outside turn lanes along CSAH 42. Once the outside turn lanes are completed, construction will move to the inside lanes and the center median. CSAH 42 will be reduced to a single lane from Pilot Knob Road (CSAH 31) to Easter Avenue during the construction. Access to and from CSAH 42 at Embry Path and the Lebanon Cemetery will not be possible once construction along CSAH 42 begins. (Please see map of alternate routes provided.) The contractor will place pre-warning signs seven (7) days prior to any scheduled lane closures and detours. All work is anticipated to be completed by October 31, 2017 (weather dependent).
