

November 27, 2018

Dear Resident:

Your street and neighborhood are included in the City's 5 year Capital Improvement Plan (CIP) for reconstruction in 2019.

The City will be conducting a drone fly through to gather information to be used in the design process. The drone will be mapping the project area as well as collecting data on surface elevations throughout the site. This work will help identify any additional maintenance to be included in the CIP project. The drone will be on site in the next few weeks.

If you have any questions, please call (952) 953-2400.
